

# A record of action, a promise of more

## Working for our community

**Local people are fed up with other areas getting better treatment than ours, having fought so hard for our community themselves.**

Look at the recent example of the saving of Cossham Hospital. Other areas were promised a brand new community hospital years ago, yet in East Bristol the NHS wanted to close and sell Cossham. Were it not for the dedicated efforts of local people in forcing a U-turn, we would have lost the locally loved hospital.

Wherever you look there are examples of how we have been let down locally – the decision to downgrade Frenchay Hospital, the closure of local Post Offices, and Labour cuts to promised new Police Community Support Officers.

We deserve better. All we want is fair and equal consideration. I am determined to fight for your interests and secure a fair deal for the area. I have already been involved in numerous campaigns with many local residents. These include championing a new 'hopper' bus service for Crews Hole, fighting plans

for intrusive mobile phone masts and tackling local traffic issues.

**Please vote positively for a change on 3rd May. Not only will you send Labour a strong message, but you will get a Councillor genuinely dedicated to the local area.**

## I promise to campaign on your behalf to:

1. Secure a 'Hopper Bus' for Crews Hole
2. Campaign for Yellow School buses across the city
3. Secure the Police Community Support Officers promised and tackle anti-social behaviour
4. Review the bin collections
5. Ensure the provision of a Minor Injuries Unit and other outpatient services at Cossham
6. Keep up the pressure for better and cheaper bus services
7. Traffic management to ease pressure on Crews Hole Road at peak times

Bristol City Council Elections

Thursday 3rd May 2007

"So let us be clear about what we're fighting for. We're fighting to improve our National Health Service, which makes such a difference to the quality of so many people's lives. We're fighting for a cleaner, greener environment - locally and globally - for this generation and those that will follow.

We're fighting to support our families: with childcare, with more flexible career opportunities, with a commitment to marriage as the essential institution of a strong society. We're

fighting to tackle the causes of poverty as well as its symptoms, and we're fighting for better schools so every child has the chance to fulfil their potential. We're fighting for better public transport so it's not such a hassle to get around.

And we're fighting to cut the crime that wrecks the quality of life in so many of our neighbourhoods."

David Cameron March 2007
